## ***Xtra-Dry<sup>®</sup>*** ***Keeps Minerals and Hygroscopic Ingredients Free Flowing***

---

**DESCRIPTION:**

*Xtra-Dry* is a free flowing powder, which is added to dry blended feed minerals at the mixing stage. **Xtra-Dry** is a value added product for free choice minerals where weather resistance and anti-caking is desired. When added to the minerals, they will repel moisture and remain free flowing. With *Xtra-Dry*, you can offer your customers the opportunity to market a premium weatherproof product to compete with high-end weather resistant minerals.

*Xtra-Dry* ingredients have AAFCO approval and are safe to use in animal feed

*Xtra-Dry* is easy to use and does not require expensive equipment

**BENEFITS:*****Manufacture***

- Reduce customer complaints
- Flexibility to compete with other weather protected products
- Value added – sell a premium product for a higher margin
- Reduces mineral bridging in bulk storage

***Producer***

- Weatherproofing – water rolls off the minerals and does not absorb into the mix
- Reduces leaching by as much as 99%
- Anti-caking properties - keeps the mix free flowing and prevents hardening, less bridging of bulk minerals
- Consistent uptake with loose minerals vs. hard-caked minerals

**DIRECTIONS & INCLUSION LEVELS:**

For best results select mineral ingredients that have larger particle sizes. This will enhance the performance of *Xtra-Dry* and reduce dust.

1. Use 10 to 20 lb per ton of minerals. The *Xtra-Dry* use rate will depend on the amount of protection desired with the higher level offering better performance.
2. *Xtra-Dry* should be the last **dry** ingredient added to the mix.
3. If liquid molasses is used, add it before *Xtra-Dry*.
4. If mineral oil or vegetable oil is used as a dust suppressant, add after *Xtra-Dry*.
5. Mix for a minimum of 30 seconds.

**COLOR/APPEARANCE:**

*Xtra-Dry* is a fine off white powder

**STABILITY:**

*Xtra-Dry* is stable for 24 months from date of manufacture.

**STORAGE:**

*Xtra-Dry* stores well in normal conditions. It is preferable to store in a cool, dry place away from sunlight. Close bag after each use.

**PACKAGING:**

*Xtra-Dry* is available in 20 lb poly lined valve pack bag
