## ***Pel-Aid<sup>®</sup>***

### ***Powerful, Low Inclusion Binder for Durability and Adhesion***

---

**DESCRIPTION:**

*Pel-Aid* is a unique pelleting aid (technical gelatin) that serves as both a lubricant and binder. The typical use rate of *Pel-Aid* is 1 to 2 lb per ton of feed but can go as high as 10 lb per ton.

The heat and moisture in the conditioning chamber liquifies *Pel-Aid*. As a liquid, it lubricates the entire feed mixture and makes faster pelleting possible. When it cools, *Pel-Aid* solidifies, binding each pellet throughout.

*Pel-Aid* is a high quality porcine gelatin.

*Pel-Aid* is a high protein source and contains over 85% crude protein

*Pel-Aid* ingredients have AAFCO approval and are safe to use in animal feed

**BENEFITS:**

*Pel-Aid* produces durable pellets that reduce fines.

*Pel-Aid* works in pelleting or extrusion systems.

*Pel-Aid* is low inclusion allowing greater flexibility in least cost feed formulation

**COMPOSITION:**

Porcine Gelatin

**DIRECTIONS & INCLUSION LEVELS:**

Mix *Pel-Aid* directly into mixer with micro ingredients. Mix thoroughly and maximize conditioning temperatures. Inclusion levels will vary depending on the feed formula, processing equipment/conditions, meal particle size and starch content. For additional guidance, consult a Uniscope pelleting technician.

Equine	application driven inclusion
Poultry Feed	2 lb
Rabbit Feed	2 lb
High Fat Fish Feed	8 to 20 lb
High Fat Duck Feed	3 to 4 lb
Beef and Horse Feed	4 to 6 lb
Shrimp Feed	15 to 30 lb

**COLOR/APPEARANCE:**

*Pel-Aid* is a light brown to buff powder with a

**STABILITY:**

*Pel-Aid* is stable for 12 months from date of manufacture.

**STORAGE:**

*Pel-Aid* stores well in normal conditions. It is preferable to store in a cool, dry place away from sunlight. Close bag after each use.

**PACKAGING:**

*Pel-Aid* 50 pound multi-wall, poly-lined paper bags.
