
Super-Bind[®] ***Powerful All Purpose Lignin Sulfonate Pellet Binder***

DESCRIPTION:

Super-Bind is an all purpose, medium inclusion lignin sulfonate pellet binder designed to improve pellet quality in all feed types. *Super-Bind* is a lignin sulfonate which has been modified during processing to provide a feed binder with powerful plasticizing properties and tack. This combination produces durable pellets that are not brittle and less apt to crack or break during normal handling.

Super-Bind solubilizes in the steam chamber and forms a strong adhesive coating on the surface of the feed particles.

Super-Bind works in pellets, cubes and pressed blocks

Super-Bind works in high grain and high fat formulas

Super-Bind reduces fines and increases hardness

Super-Bind can replace other lignin's at equal inclusion levels

COMPOSITION:

Lignin Sulfonate

DIRECTIONS & INCLUSION LEVELS:

Mix *Super-Bind* directly into mixer with micro ingredients. Mix thoroughly and maximize conditioning temperatures. Inclusion levels range from 10 to 25 lbs per ton (5 to 12.5 kg per tonne)

COLOR/APPEARANCE:

Super-Bind is a brown to tan powder with typical lignin odor.

STABILITY:

Super-Bind is stable for 12 months from date of manufacture. Contact Uniscope for specific information.

STORAGE:

Store *Super-Bind* in a cool, dry place. Close bag after each use.

PACKAGING:

Super-Bind is available in 50 lb or 25 kg multi-wall, poly lined, valve pak bags and 2000 lb tote sacks.
